

Show Committee Chair **Matt Robinson** (BA Robinson) and his Committee are working hard to create a bigger and better CIPHEX West than ever before.

**Here's a snapshot of what's in store for you in Calgary on November 3 & 4:**

- More seminars and workshops, with top industry speakers including John Siegenthaler, Sidney Manning, Arnold Knapp and Carol Fey;
- The ever popular Gallery of New Products returns, featuring the competition for the most innovative new products;
- A new "Tour of Eco-Friendly Products" will give visitors a chance to check out new energy and water efficient products;
- Visitors registered for CIPHEX West will also be able to tour the BUILDDEX Calgary trade show for free; and
- Thursday, November 4<sup>th</sup> is TOQUE DAY at CIPHEX West. Be one of the first 500 visitors at the show on Thursday and receive a free toque.

**SAVE \$25 PER PERSON. Register to attend now online at [www.ciphexwest.ca](http://www.ciphexwest.ca)**

Show Chairman **Frédéric Perrin** (Usines Giant Factories) reports: **Four shows in one makes MCEE the meeting place for Eastern Canada's mechanical and electrical industries! The trade show and conference takes place April 20 and 21, 2011 at Place Bonaventure in Montreal.**

Produced by the Corporation of Master Pipe Mechanics of Quebec ([CMMTQ](#)), the Canadian Institute of Plumbing & Heating ([CIPH](#)), Corporation of Master Electricians of Quebec ([CMEQ](#)), and the Corporation des entreprises en traitement de l'air et du froid ([CETAF](#)), MCEE is Canada's largest plumbing, heating, electrical and lighting trade show and the only major industry event in Eastern Canada in 2011.

Together, the four associations represent 90% of the region's plumbing, HVACR and electrical (MRO) contractors and wholesaler distributors. IES Montreal (Illuminating Engineering Society) and EFC (Electro Federation Québec) also support MCEE 2011.

More than 300 exhibitors from across Canada and the United States will display a wide range of products in plumbing, heating, hydronics (modern hot water heating), ventilation, electrical, lighting, air conditioning and refrigeration equipment, electrical equipment, water treatment systems, tools, alarm systems, kitchen and bath fixtures, fire prevention; pipes, valves & fittings and software.

Exhibit sales for the 2011 show are underway – with space being snapped up at an unprecedented rate.
