CHC Releases NEW Publication

New Design and Installation Handbook!

Save when you buy both the Handbook and CSA B214 as a Combo Package!

The Canadian Hydronics Council is pleased to announce the release of its new Handbook on Hydronic Heating Systems. This Handbook is intended to assist installers, designers and inspection authorities with information about hydronic heating systems. The hydronic heating systems addressed in this Handbook include residential and commercial buildings of three or less storeys with a building area of less than 600 m².

This handbook provides useful information on best practices by relating preferred methods to the code requirements of the CAN/CSA B-214 Installation Code for Hydronic Heating Systems. The minimum standards outlined by the codes-related articles are expanded upon by the handbook with descriptions as they apply to the various aspects of hydronic heating system design and installation.

The handbook is being sold either as a stand-alone document (\$59 for CHC members, \$79 for non-members), or in combination with CSA B214-07 Installation Code for Hydronic Heating Systems (\$159 for CHC members, \$189 for non-members). To order, please visit <http://www.ultimatecomfort.ca/contractors/publications.html>.

The Canadian Hydronics Council is a Council within the Canadian Institute of Plumbing and Heating. CHC's mission is to promote the responsible growth and contribute to the prosperity of its members and their customers in the hydronic heating industry.

The Canadian Institute of Plumbing & Heating is a not-for-profit trade association. Founded in 1933, the Institute is a vibrant organization committed to providing members with the tools for success in today's competitive environment. More than 260 companies are members of this influential Canadian industry association. They are the manufacturers, wholesaler distributors, master distributors, manufacturers' agents and allied companies who manufacture and distribute plumbing, hydronic heating, industrial, waterworks and other mechanical products. CIPH wholesalers operate more than 600 warehouses and showrooms across Canada. Total industry sales exceed \$4.6 billion annually.
